## Hand-held Precision Trimmer

TR 159 Trimmer Bit 1 & 2mm

Hand-held Trimmer Cover

The Hand-held Precision Trimmer is an improved trimming machine specially made for unusually-shaped workpieces.

Not only does it cut away excessive parts of the edge band on the workpieces, it is also an excellent tool for trimming edges of different arcs.

The thickness of the processing plate and the radius of the rounding bit are also adjustable according to preference.
