

## DOOR / WINDOW JAMB PROFILE

The unique Door / Window Jamb Profile is the most efficient way of avoiding cracks between installation of wooden door jamb and concrete wall.

This profile helps reduce the risk of moisture build-up, which may result to rotting of frame, mold formation, insect infestations and costly call-backs. Besides being low-maintenance, dent and scratch-resistant, the Door / Window Jamb Profile also offers its users peace of mind.

**DW1** DOOR / WINDOW JAMB PROFILE 5MM X 25MM  
**DWP1.A01.1**

**DW2** DOOR / WINDOW JAMB PROFILE 5MM X 18MM
