

Vacuum Table is ideal for replacing the traditional fixture. It is used to fix flat workpieces, such as board, glass, marble, and other flat panel workpieces on the work table.

Characteristics: Great strength, prompt and convenient operation, durable use and does not damage workpieces. It creates more cross-cutting vertical and horizontal grooves, forming a work surface with many squares or rectangles. It is also compatible with workpieces of different sizes.

Technical Specifications

Net Weight	5 kg	Dimensions	300x300x215 mm
Pressure	3 - 6 kg/cm ³
